

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2022-0069]

Notice of Request for Extension of Approval of an Information Collection; Phytosanitary Export Certification

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with the regulations for the issuance of phytosanitary certificates for plants or plant products being exported to foreign countries.

DATES: We will consider all comments that we receive on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to www.regulations.gov. Enter APHIS-2022-0069 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.
- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS-2022-0069, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at [regulations.gov](https://www.regulations.gov) or in our reading room, which is located in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for phytosanitary export certification for plants and plant products being exported to foreign countries, contact Mr. Christian Dellis, Deputy Director, Phytosanitary Issues Management, PPQ, PHP, APHIS, 4700 River Road Unit 131, Riverdale, MD 20737; (301) 851-2154; christian.b.dellis@usda.gov. For information about the information collection process, contact Mr. Joseph Moxey, APHIS' Paperwork Reduction Act Coordinator; (301) 851-2483; joseph.moxey@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Phytosanitary Export Certification.

OMB Control Number: 0579-0052.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to certify as to the freedom of plants, plant products, or biological control organisms from plant pests or noxious weeds, or the exposure of plants, plant products, or biological control organisms to plant pests or noxious weeds, according to the phytosanitary or other requirements of the countries to which the plants, plant products, or biological control organisms may be exported.

The Animal and Plant Health Inspection Service (APHIS), among other things, provides export certification services to assure other countries that the plants and plant products they are receiving from the United States are free of plant pests specified by the receiving country. Our regulations do not require that we engage in export certification activities. However, we perform this work as a service to exporters who are shipping plants or plant products to countries that require phytosanitary certification as a condition of entry.

The export certification regulations in 7 CFR part 353 describe the procedures for obtaining certification for plants and plant products offered for export or re-export. To request that we perform a phytosanitary inspection, an exporter must complete and submit an

Application for Inspection and Certification of Plants and Plant Products for Export. After assessing the condition of the plants or plant products intended for export (i.e., after conducting a phytosanitary inspection), an inspector (who may be an APHIS employee or a State or county plant regulatory official) will issue an internationally recognized phytosanitary certificate or a phytosanitary certificate for re-export. All of these forms are critical to our ability to certify plants and plant products for export. Without them, we would be unable to conduct an export certification program.

In addition, APHIS uses the following information collection activities, such as recordkeeping, a compliance agreement for State inspectors, requests for APHIS to negotiate with national plant protection organizations for industry-issued certificates or documentation, memorandum of understanding with industry for inspection and use of International Standards for Phytosanitary Measures Guidelines for Regulating Wood Packaging Material in International Trade (ISPM 15), and the application of an ISPM 15 mark.

We are asking OMB to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.007 hours per response.

Respondents: State, local, and county plant regulatory officials, U.S. growers, shippers, and exporters.

Estimated annual number of respondents: 9,101.

Estimated annual number of responses per respondent: 6,162.

Estimated annual number of responses: 56,080,454.

Estimated total annual burden on respondents: 401,228 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of December 2022.

Anthony Shea,

Administrator,

Animal and Plant Health Inspection Service.
